OZARK NATIONAL SCENIC RIVERWAYS

COMPENDIUM AMENDMENT: 36 CFR 1.5

Designations, Closures, Permit Requirements and other Restrictions Imposed Under the Discretionary Authority of the Superintendent ... Title 36, Code of Federal Regulations, Chapter 1.

AUTHORITY

Under the authority of 16 U.S.C. Section 3, and Title 36, Code of Federal Regulations, Chapter 1, Parts 1-7, this Compendium of Superintendent's Orders is established for Ozark National Scenic Riverways. Regulations listed in this compendium are a requirement in addition to those listed in Parts 1-7 of Title 36 unless otherwise noted. The specific authority for this regulatory procedure is found in Sections 1.5, 1.6 and 1.7 of Title 36.

PART 1 – General Provisions

Section 1.5(a)(1) Closures and Public Use Limits:

The following road has been closed for public use:

Pot Hole, EE Highway, Roads & Trails #2-3029, Shannon County, Missouri

(See attached Map)

Determination: Recent flooding has caused serious erosion, with some sections of the road dropping off into the river. The road's current condition has been deemed unsafe for motor vehicle use and thus threatens public safety and emergency response to this campsite. Additional resource damage has also been created by the public attempting to drive through the woods to reach this site. To protect public safety and resources, it has been determined that an emergency closure be placed in effect until conditions change. The campsite will remain open by river access only.
